

RADWAY PARISH SURVEY

2010

RESULTS

FINAL REPORT

**Produced by
Stratford District Council Consultation Unit**

January 2011

OVERVIEW

Dear Radway Resident,

The following is the result of the survey you completed last year. It has taken some time to come together as we were short of volunteers, so our apologies for this. We think the results show that the villagers in the main like their surroundings, do not want great changes, and want a peaceful life. Some issues exist of course and these need to be looked at to see if there is anything that can be done within the restrictions that these times place upon us.

Thank you once again for your co-operation.

If you have any queries at all please contact any of the Parish Councillors who will be happy to help.

- Appendix 6: Responses to Q50: Other suggestions (5 comments)**

1.0 Introduction

The survey was designed to assist Radway Parish Council's plans for improving Radway and the future of the local community by providing resident feedback on a number of important issues. In particular, the objective is to receive residents' views on current facilities and services in Radway, and to ensure the requirements of the village as a whole are identified.

2.0 Methodology

Radway Parish Council, with Stratford District Council designing the final version, developed the questionnaire.

58 questionnaires were returned from around 100 distributed in the village (58% household response rate). 119 residents completed the survey as more than one response was allowed on a single questionnaire (up to 6 residents of a property aged 11 or over was able to complete it).

The report follows the order of the questionnaire. Charts and tables are used throughout the report to assist the interpretation of the results. In some cases, anomalies appear due to "rounding".

Results were run using one cross tabulation for gender to see if differences occurred in attitude. No results saw any significant differences in attitude.

The term "base" in the tables and charts refer to the number of responses to a particular question.

3.0 Summary of Results

3.1 The Place

- When asked what is most important to them about Radway, over four fifths (84%) stated the environment; just over half (53%) said the situation; and four in ten (42%) stated the community.
- Exactly half of residents think recycling should be done to help protect and enhance the local environment of Radway; and four in ten (40%) stated improved public transport.

3.2 Employment

- Nine out of ten residents (87%) said that they were not actively seeking work.

3.3 Traffic and Transport

- Almost three quarters (71%) claimed their main means of transport to work, training or study, would be car/van.
- Exactly three quarters (75%) of those surveyed confirmed they never experienced transport difficulties in getting out of Radway to other places and just under a quarter (23%) said they did occasionally.
- Just over half of those surveyed (53%) stated that they parked their vehicle off the road.
- Over half (53%) of residents experienced lack of off road parking; just under half (45%) had cars blocking their entrance; and almost a third (32%) claimed there were not enough spaces near their property.
- 9% of residents used a train at least weekly with a further 30% using one on a monthly basis. 5% of those surveyed used a bus at least weekly.
- 43% of those surveyed did think speeding traffic was a problem.
- Three in ten residents (30%) would support "children at play signs"; however, significantly, almost half of those surveyed (46%) were not in favour of any of the suggested speed control measures in Radway.

3.4 Lighting

- Four in ten (37%) of those surveyed felt the standard of street lighting was good; 30% said it was reasonable; and over a quarter (28%) stated it was poor.
- Just over half (51%) of respondents would like to see more environmentally sensitive street lights.

3.5 Housing

- Three in ten (29%) felt Radway can accommodate more affordable homes; 83% did not think Radway can accommodate 1 bedroom homes; just over four fifths (81%) did not think Radway can accommodate 2-3 bedroom homes; and nine in ten (88%) did not think Radway can accommodate 4+ bedroom homes.

- Significantly, six in ten residents think more new housing in Radway will spoil the environment.

3.6 Services

- Nine in ten of those surveyed (between 86% and 91%) confirmed they never had any difficulty in getting to the hospital; doctor; chemist; chiropodist; optician; dentist; and other medical facility.
- Over half of those surveyed (54%) said that they used the local shop on a weekly basis. Significantly, seven in ten (67%) claimed never to use the library. 43% used the post office on a weekly basis. Almost two thirds (65%) claimed they used the chemist either never or less frequently than monthly. Similarly, 66% of those surveyed said either they never used the pharmacy or less frequently than monthly.

3.7 Leisure

- Three quarters of those surveyed confirmed that they felt sports and leisure facilities are easily accessible to them.

3.8 Local Environment

- Nine in ten residents (90% and 89% respectively) stated "tranquillity" and "a sense of space" as elements of the countryside around Radway that they valued. Over three quarters (77%) cited "openness" and 41% said "local identity".
- Residents were asked to rate how important a list of surrounding countryside features were to them. Significantly, everybody cited meadows and green fields as very important or important. Nearly everyone (99%, 95% and 94% respectively) said small woods, ditches and hedges were either very important or important to them. Nine in ten respondents (93%) confirmed traditional farm buildings were very important or important to them.
- Nine in ten respondents (90%, 87%, 86% and 85% respectively) felt that groups of trees, ponds, streams, and open spaces should be protected. Almost three quarters (74%) of those surveyed believed ditches should be protected.
- Nearly all respondents (98%) felt to look after woodlands was very important or important. Exactly a quarter (25%) said it was not very important to plant more hedges and trees. 85% believed it was very important or important to preserve old orchards.
- Over four fifths (82%) of those surveyed did know where the local paths are, over three quarters (79%) could use them without difficulty, and seven in ten (72%) thought they were well signposted. Interestingly, almost one fifth (18%) stated they would be willing to help maintain them.
- Six out of ten respondents (61%) would like more parking, four in ten (40%) more lights, 31% would like village groups, and a fifth (20%) would like a play area.

3.9 What's Next?

- Nine in ten respondents (85%) felt that the results of this survey should be made known by an information sheet through every door.
- Over half (57%) of those surveyed felt future research in respect of the Parish should be mixture of online and paper. Almost half (47%) cited paper only.

- Nearly three quarters (72%) of respondents thought money for implementation of suggestions raised by the questionnaire should come from fundraising. Four in ten (39% in both cases) felt money should come from moderate council tax increases and sponsorship. Just under a third (32%) felt it should come from private contributions. Significantly, nobody thought that money should come from higher council tax increases.

3.10 Household Section

- The mean figure for the number of people, including children, per household, is 2.4.
- Nearly three quarters (72%) of respondents stated their dwelling was owner occupied. 12% said Housing Association rented; and 9% cited private rented.
- Exactly two fifths (40%) of respondents would prefer to heat their home with gas: over a third (36%) quoted oil; just over a quarter (26%) named solar power; and just under a quarter (23%) cited wood.
- Almost two thirds (64%) of residents confirmed they had no flooding problems with surface water or storm drainage. However, just over a quarter (26%) had few problems and 6% said they had many problems.
- When asked to give the reasons why any of their children under 16 are unable to take part in after school activities, three quarters (75%) said lack of transport home; a quarter gave the reason of the distance between home / school; and a quarter stated the expense. Nobody indicated that special needs were not catered for.
- A total of 109 vehicles are kept by the households responding to this question and the average per household is 1.9.

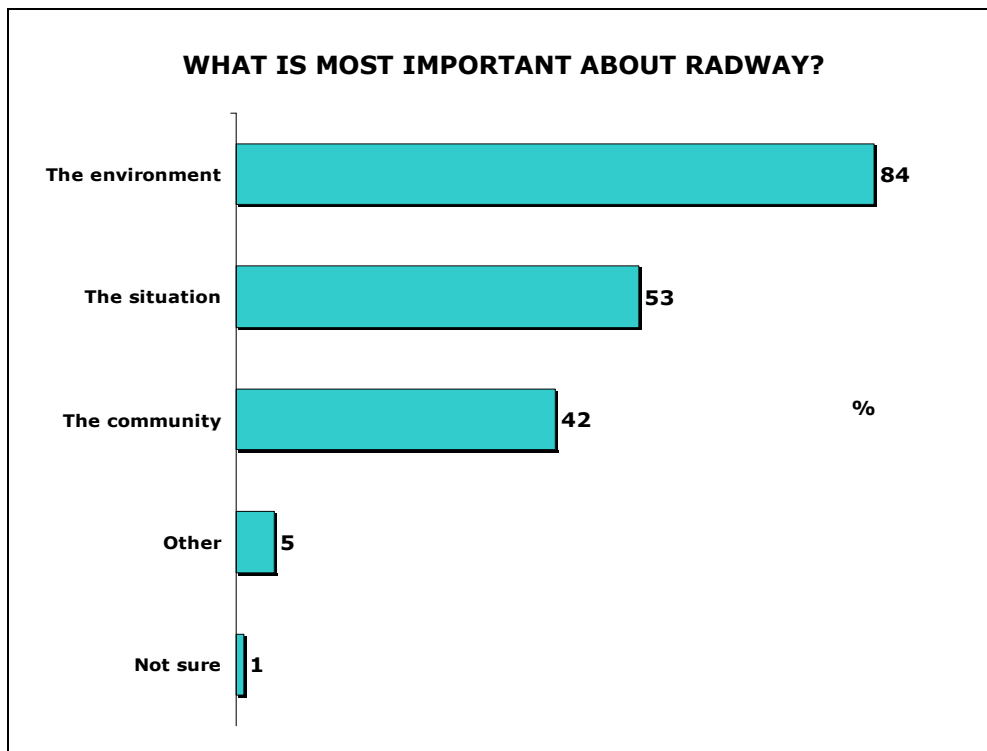

4.0 Results in Detail

4.1 The Place

What is most important about Radway?

All residents were asked to indicate what is most important to them about Radway. Their feedback is illustrated in the chart below. Over four fifths (84%) stated the environment; just over half (53%) said the situation; and four in ten (42%) stated the community.

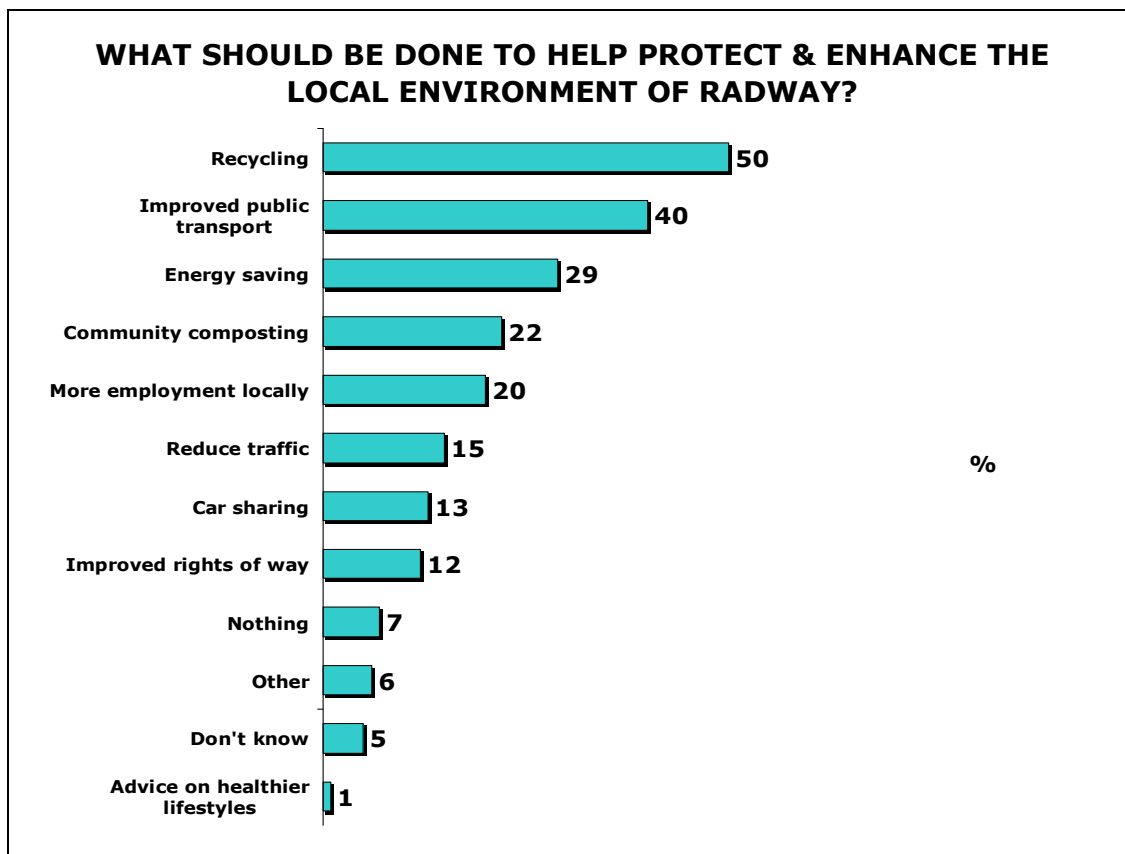

Chart 1:

What residents think should be done to help protect and enhance the local environment of Radway?

Exactly half of residents think recycling should be done to help protect and enhance the local environment of Radway. Four in ten (40%) stated improved public transport; three in ten (29%) said energy saving; and just over a fifth (22%) cited community composting. The following chart illustrates feedback received.

Chart 2:

4.2 Employment

Are there any barriers that are preventing residents from taking up employment, training or study opportunities?

Almost nine out of ten residents (87%) responded by saying that they were not actively seeking work; 3% stated disability or ill health of some kind as a barrier from taking up employment, training or study opportunities; and 1% cited lack of access to transport. Significantly, 11% of those surveyed claimed it was for none of those reasons provided.

Table 1:

	TOTAL
	%
Not actively seeking work	87
Disability or ill health of some kind	3
Lack of access to transport	1
Lack of alternative care for adult independent	0
Lack of child care locally	0
Cost of child care locally	0
I don't have the right type of experience	0
I don't have the right type of qualifications / training	0
Lack of information / advice	0
None of these	11

4.3 Traffic and Transport

What is, or would be, your main means of transport to work, training or study?

Almost three quarters (71%) claimed their main means of transport would be car / van; 5% stated walking; and 3% cited private bus. Nobody said taxi, nor bicycle, or other means.

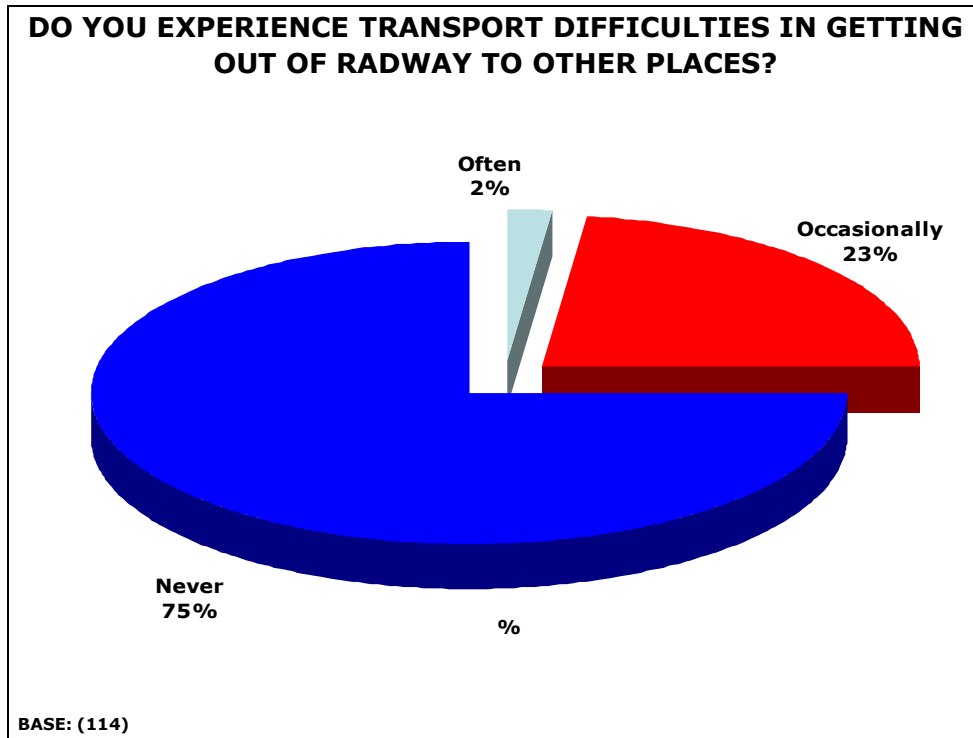

Chart 3:

Do you experience transport difficulties in getting out of Radway to other places?

Exactly three quarters (75%) of those surveyed confirmed they never experienced transport difficulties in getting out of Radway to other places. Just under a quarter (23%) said they did occasionally and 2% stated often.

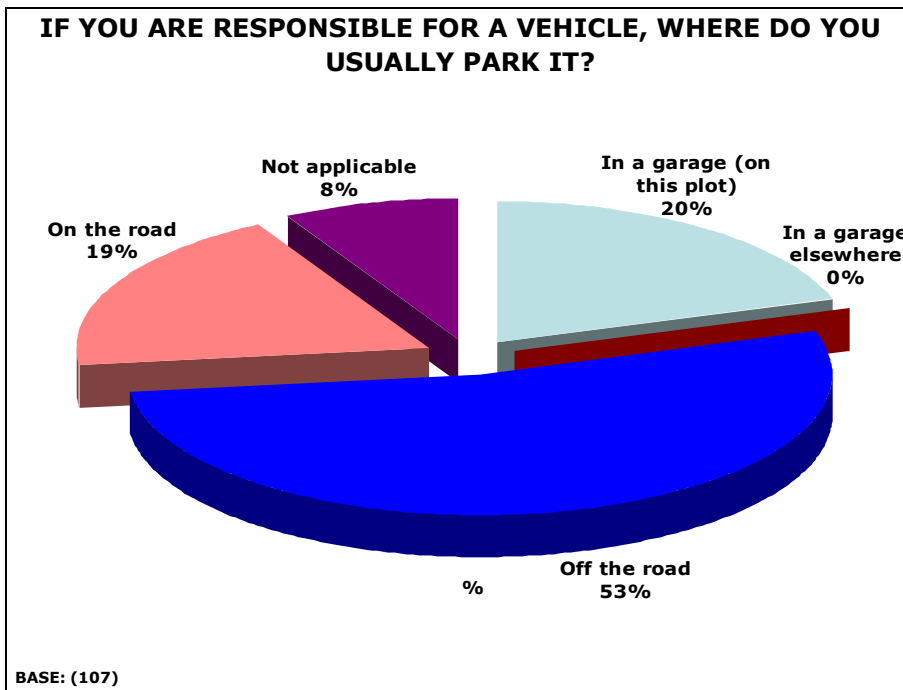

Chart 4:

If you are responsible for a vehicle, where do you usually park it?

Just over half of those surveyed (53%) stated that they parked their vehicle off the road; exactly one fifth (20%) cited in a garage (on this plot); just less than one fifth (19%) said on the road; and 8% said not applicable. Nobody stated in a garage elsewhere.

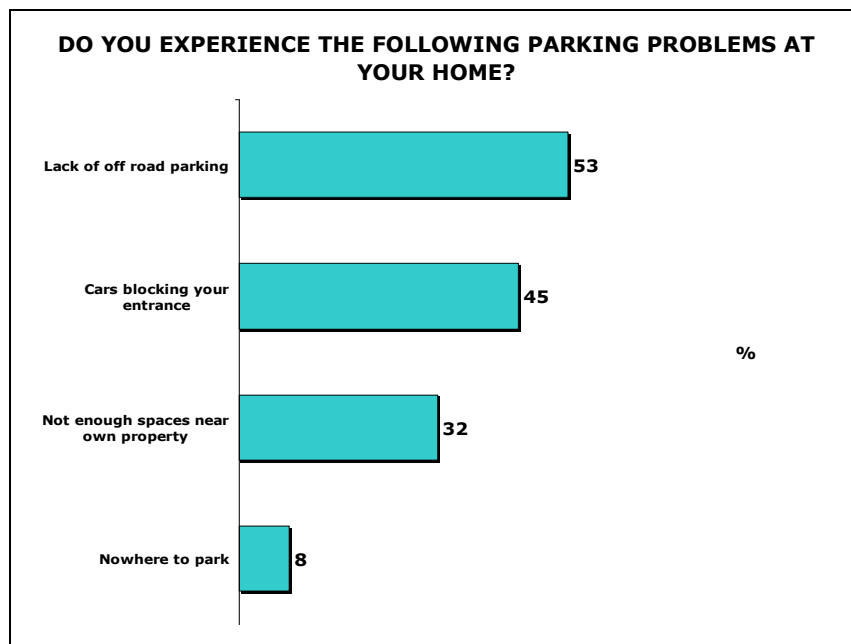

Chart 5:

Do you experience the following parking problems at your home?

Over half (53%) of residents experienced lack of off road parking; just under half (45%) had cars blocking their entrance; and almost a third (32%) claimed there were not enough spaces near their property. One in ten (8%) stated they had nowhere to park.

Chart 6:

How often do you use the bus, train, coach and community bus?

9% of residents used a train at least weekly with a further 30% using one on a monthly basis. 5% of those surveyed used a bus at least weekly.

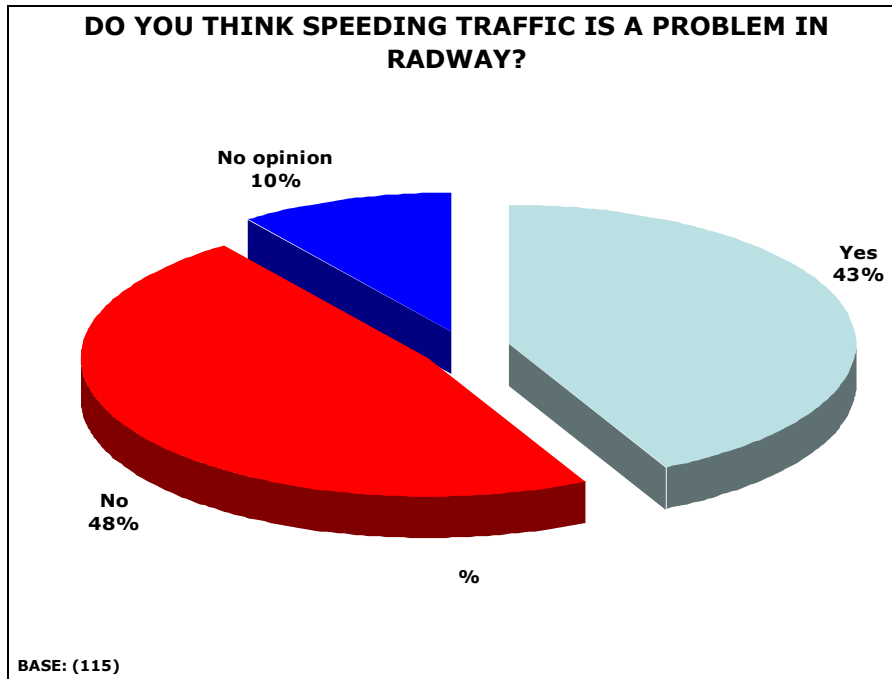

Table 2:

	Base	Daily	Weekly	Monthly	Never
	%	%	%	%	%
Bus	(92)	1	4	11	84
Train	(84)	4	5	30	62
Coach	(71)	0	0	1	99
Community Bus	(73)	0	0	1	99

Do you think speeding traffic is a problem in Radway?

Nearly half (48%) of respondents did not think speeding traffic in Radway was a problem. One in ten had no opinion on the matter; however, 43% of those surveyed did think it was a problem.

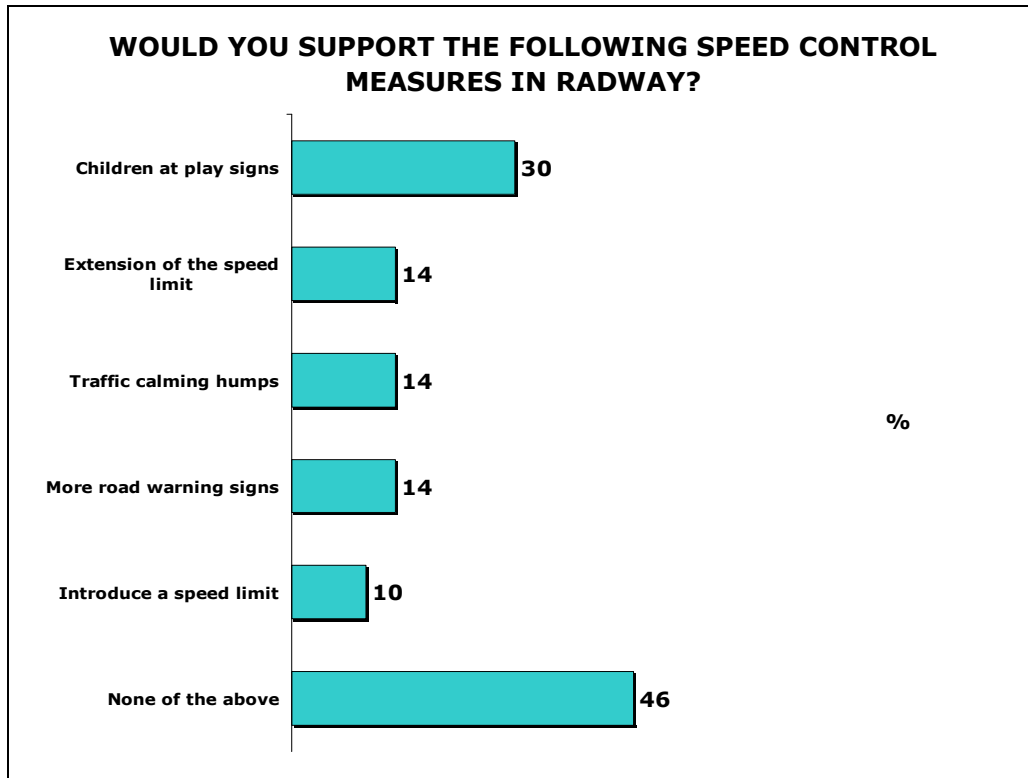

Chart 7:

Would you support the following speed control measures in Radway?

Three in ten residents (30%) would support “children at play signs”; 14% were in favour of the following three speed control measures: “the extension of the speed limit”; “traffic control humps”; and “more road warning signs”. One in ten (10%) supported “introduce a speed limit”; however, significantly, almost half of those surveyed (46%) were not in favour of any of the suggested speed control measures in Radway.

Chart 8:

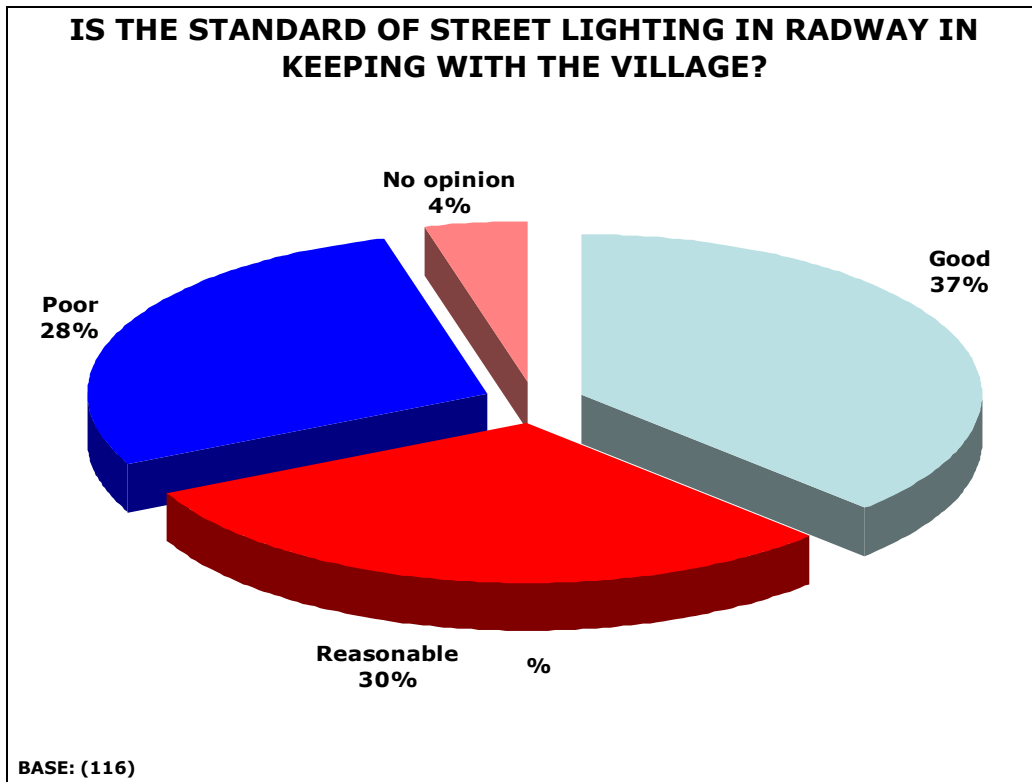

4.4 Lighting

Is the standard of street lighting in Radway in keeping with the village?

Four in ten (37%) of those surveyed felt the standard of street lighting was good; 30% said it was reasonable; and over a quarter (28%) stated it was poor.

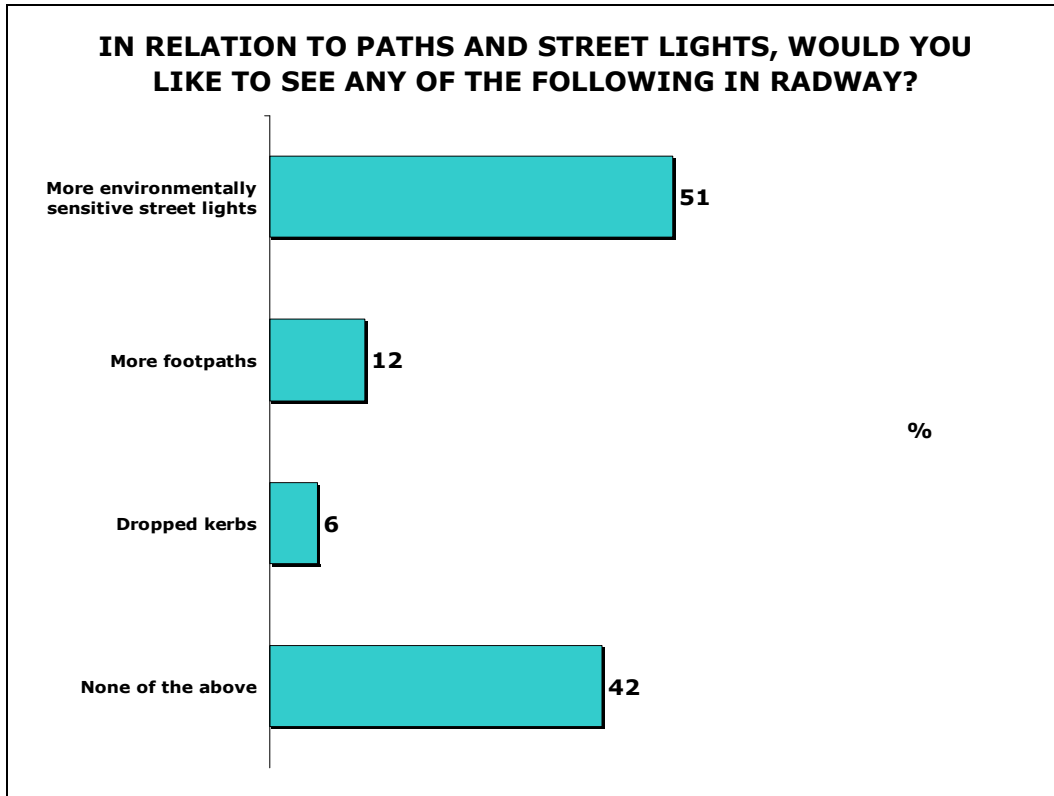

Chart 9:

In relation to paths and street lights, whether residents would like to see any of the following in Radway?

Just over half (51%) of respondents would like to see more environmentally sensitive street lights; 12% stated more footpaths; and 6% said dropped kerbs. Interestingly, four in ten (42%) of those surveyed were not in favour of any of the above.

Chart 10:

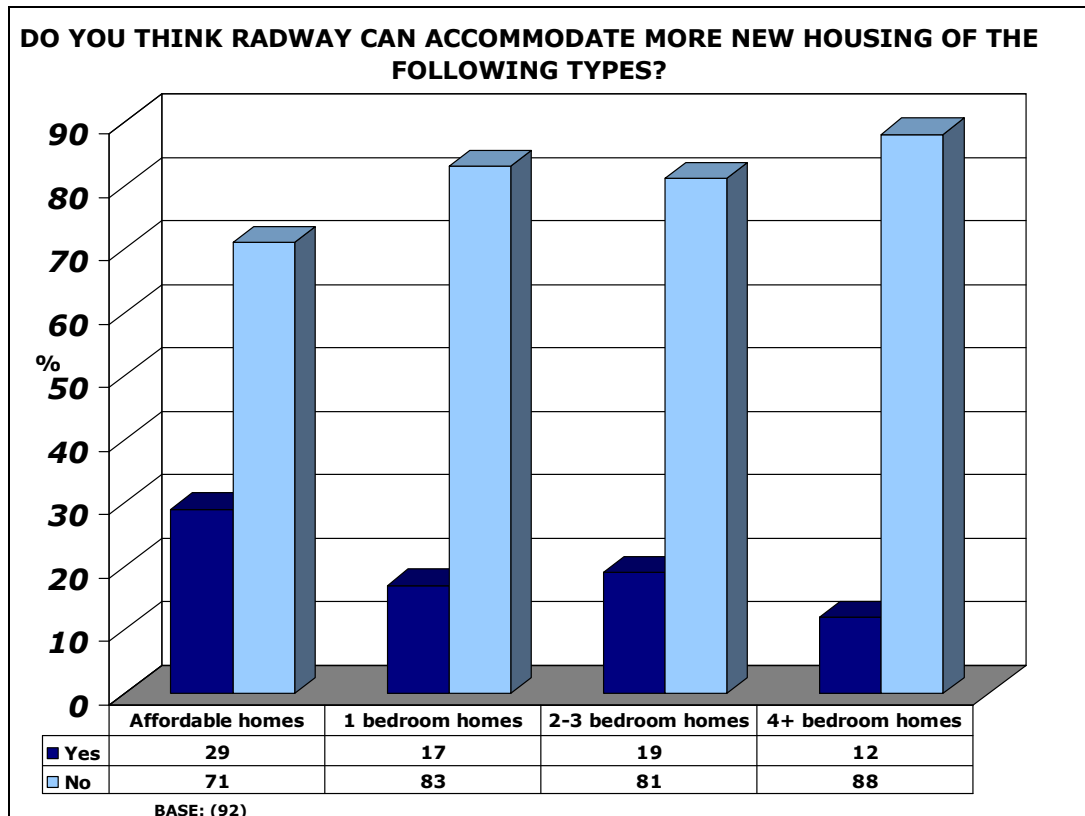

4.5 Housing

Do you think Radway can accommodate more new housing?

Three in ten (29%) felt Radway can accommodate more affordable homes; 83% did not think Radway can accommodate 1 bedroom homes; just over four fifths (81%) did not think Radway can accommodate 2-3 bedroom homes; and nine in ten (88%) did not think Radway can accommodate 4+ bedroom homes.

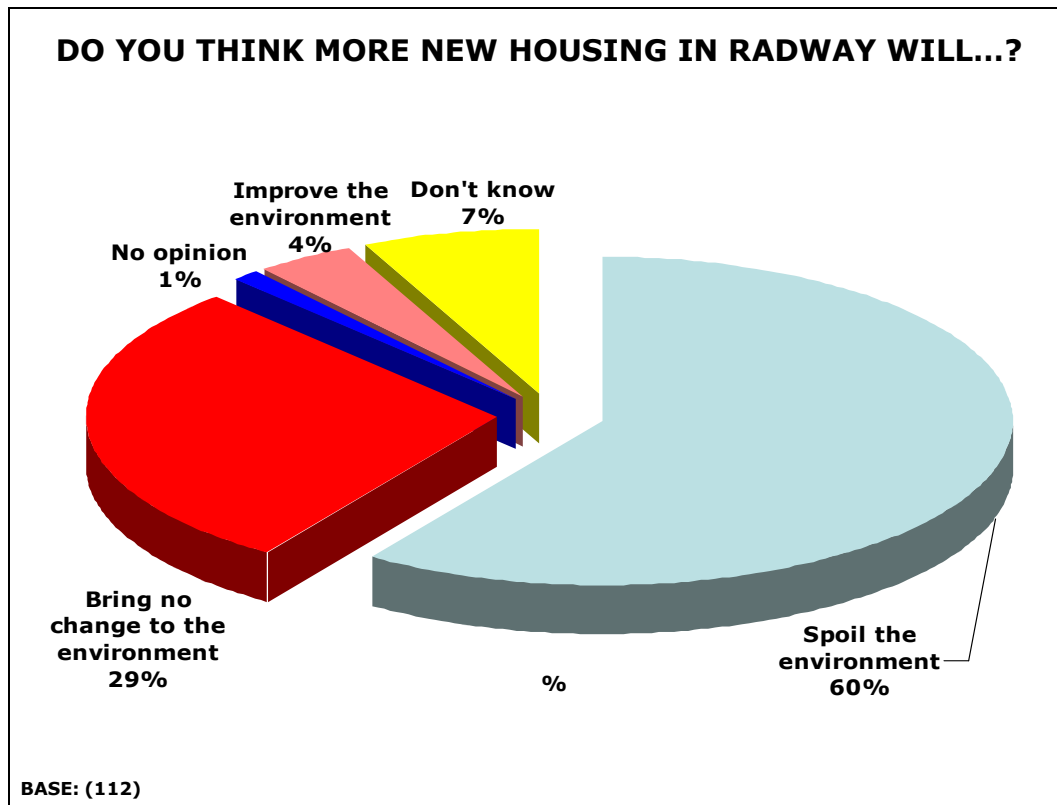

Chart 11:

Do you think more new housing in Radway will...?

Significantly, six in ten residents think more new housing in Radway will spoil the environment; three out of ten (29%) felt it would bring no change to the environment; and 4% thought it would improve the environment.

Chart 12:

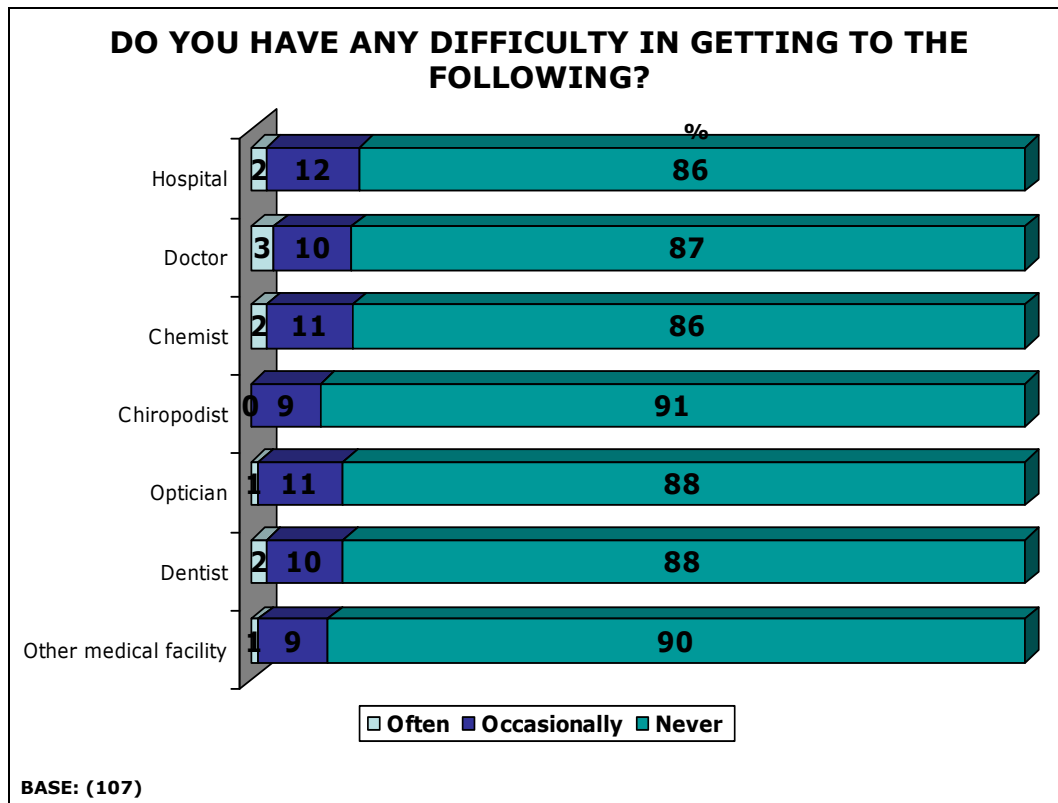

4.6 Services

Do you have any difficulty in getting to the following?

Nine in ten of those surveyed (between 86% and 91%) confirmed they never had any difficulty in getting to the hospital; doctor; chemist; chiropodist; optician; dentist; and other medical facility.

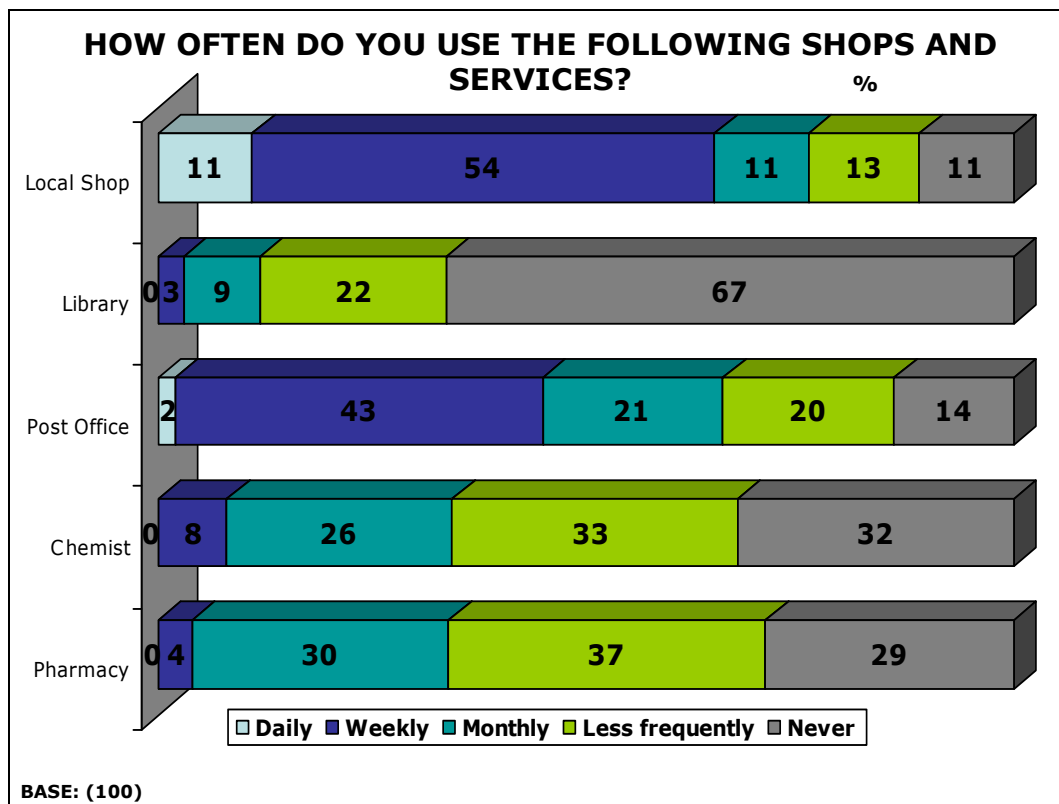

Chart 13:

How often do you use the following shops and services?

Over half of those surveyed (54%) said that they used the local shop on a weekly basis. Significantly, seven in ten (67%) claimed never to use the library. 43% used the post office on a weekly basis. Almost two thirds (65%) claimed they used the chemist either never or less frequently than monthly. Similarly, 66% of those surveyed said either they never used the pharmacy or less frequently than monthly.

Chart 14:

Where do you go to for these services / shops?

All residents were asked to state where they went to for these services / shops. 53 responses were given and these are listed in Appendix 1.

4.7 Leisure

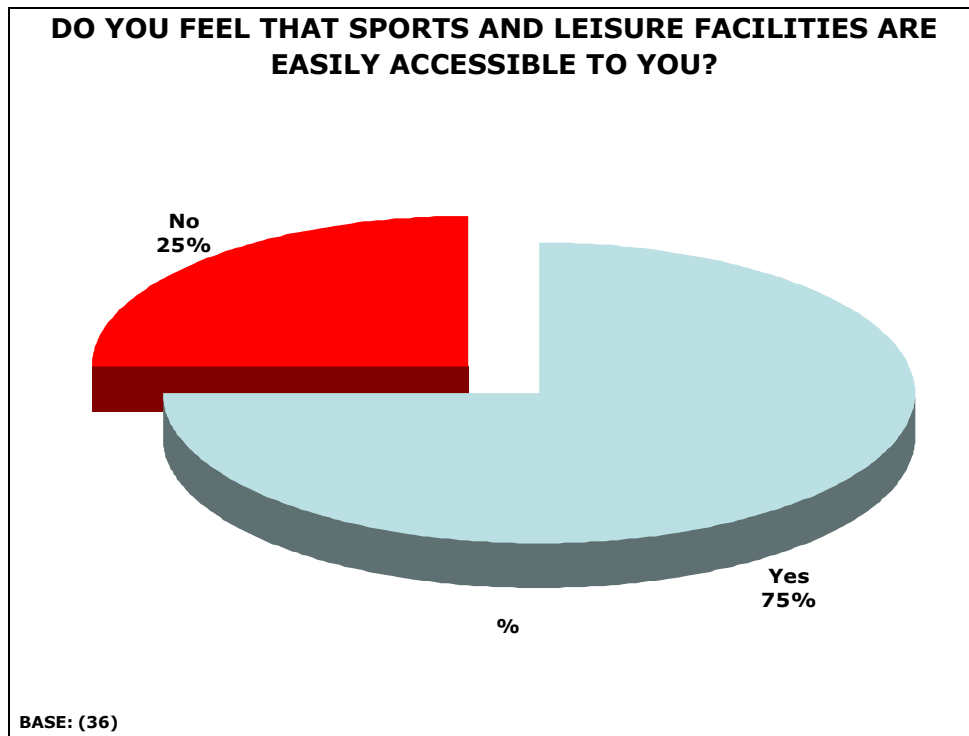

Where do you go for sports and leisure facilities?

A total of 42 responses were given by residents when asked where they go for sports and leisure facilities and these can be found in Appendix 2.

Do you feel that sports and leisure facilities are easily accessible to you?

Exactly three quarters of those surveyed confirmed that they felt sports and leisure facilities are easily accessible to them.

Chart 15:

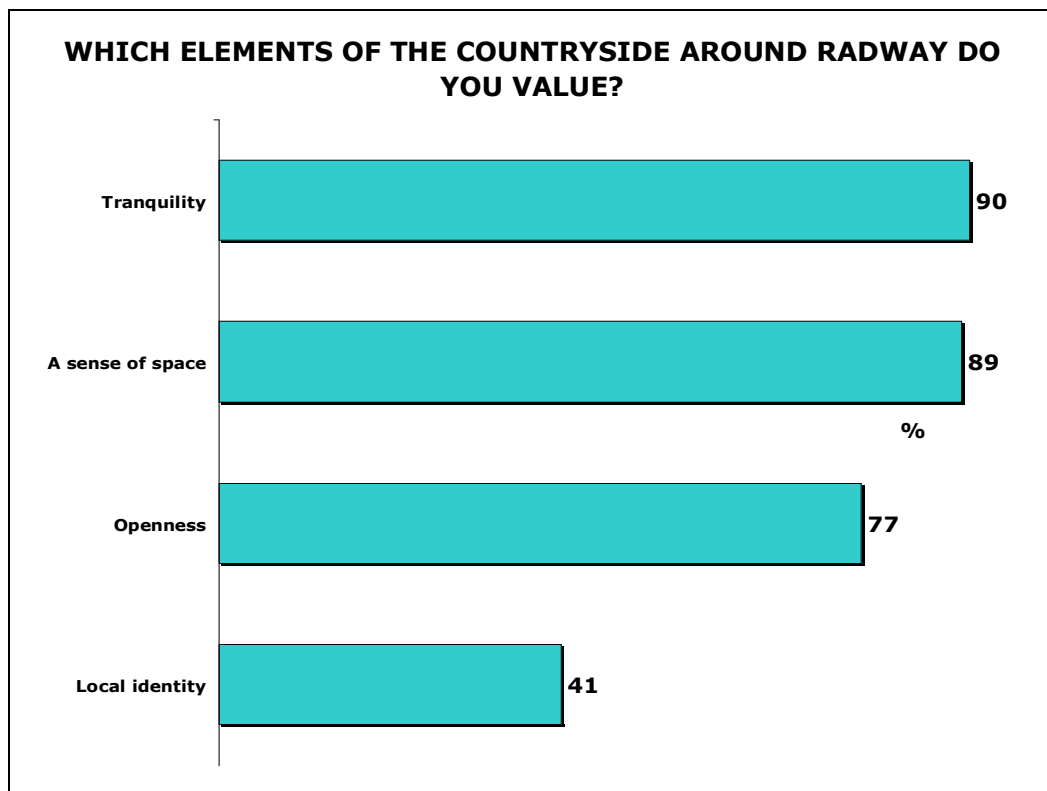

4.8 Local Environment

Which elements of the countryside around Radway do you value?

Nine in ten residents (90% and 89% respectively) stated “tranquillity” and “a sense of space” as elements of the countryside around Radway that they valued. Over three quarters (77%) cited “openness” and 41% said “local identity”.

Chart 16:

How important are the following features of the surrounding countryside to you?

Residents were asked to rate how important a list of surrounding countryside features were to them. Feedback is illustrated in the table below.

Significantly, everybody cited meadows and green fields as very important or important. Nearly everyone (99%, 95% and 94% respectively) said small woods, ditches and hedges were either very important or important to them; almost three quarters (74% and 73% respectively) stated orchards and forests as being very important or important to them. Four fifths (80% and 79% respectively) claimed dry stone walls and farm woods were very important or important to them. Notably, over half of those surveyed (58%) said modern farm buildings were not very important to them and exactly one fifth (20%) expressed no opinion on them. By contrast, however, nine in ten (93%) respondents confirmed traditional farm buildings were very important or important to them.

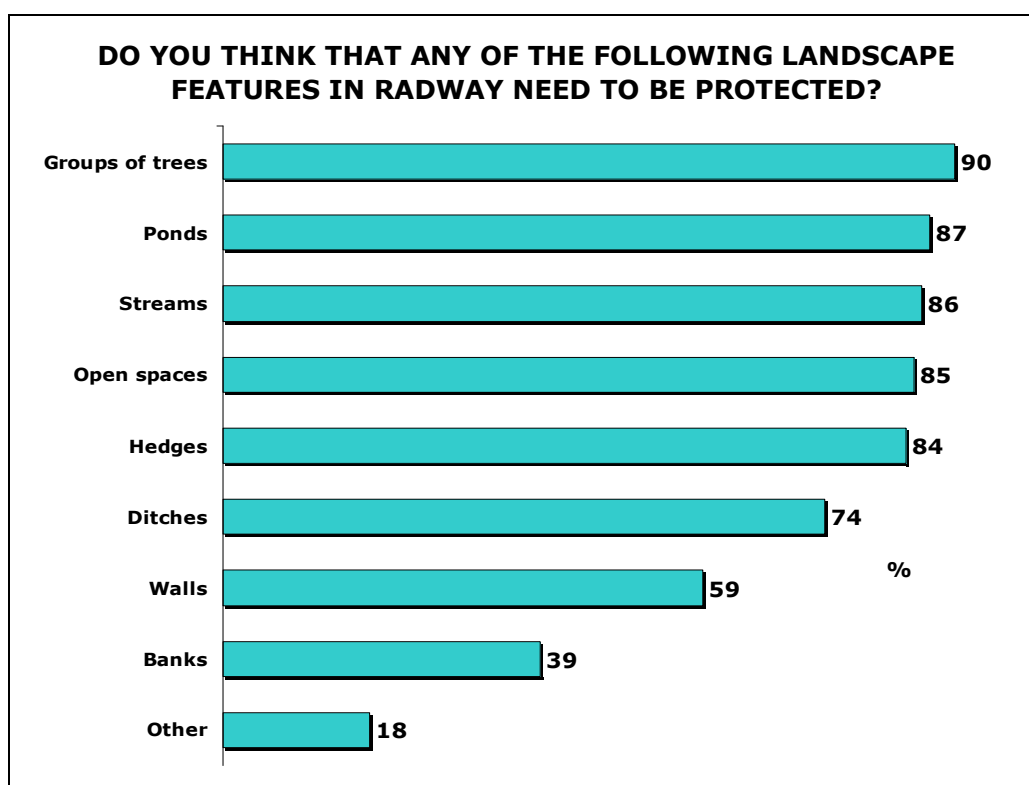

Table 3:

	Base	Very important	Important	Not very important	No opinion
	%	%	%	%	%
Small woods	(98)	68	31	1	0
Forests	(89)	37	36	15	12
Orchards	(92)	28	46	25	1
Hedges	(100)	72	22	4	2
Dry stone walls	(92)	50	30	16	3
Ditches	(94)	63	32	3	2
Meadows and green fields	(99)	89	11	0	0
Modern farm buildings	(86)	7	15	58	20
Traditional farm buildings	(96)	49	44	2	5
Farm woods	(91)	44	35	12	9

Do you think that any of the following landscape features in Radway need to be protected?

Nine in ten respondents (90%, 87%, 86% and 85% respectively) felt that groups of trees, ponds, streams, and open spaces should be protected. Almost three quarters (74%) of those surveyed believed ditches should be protected. Of the 18% who gave other features, 13 comments were made and these are listed in Appendix 3.

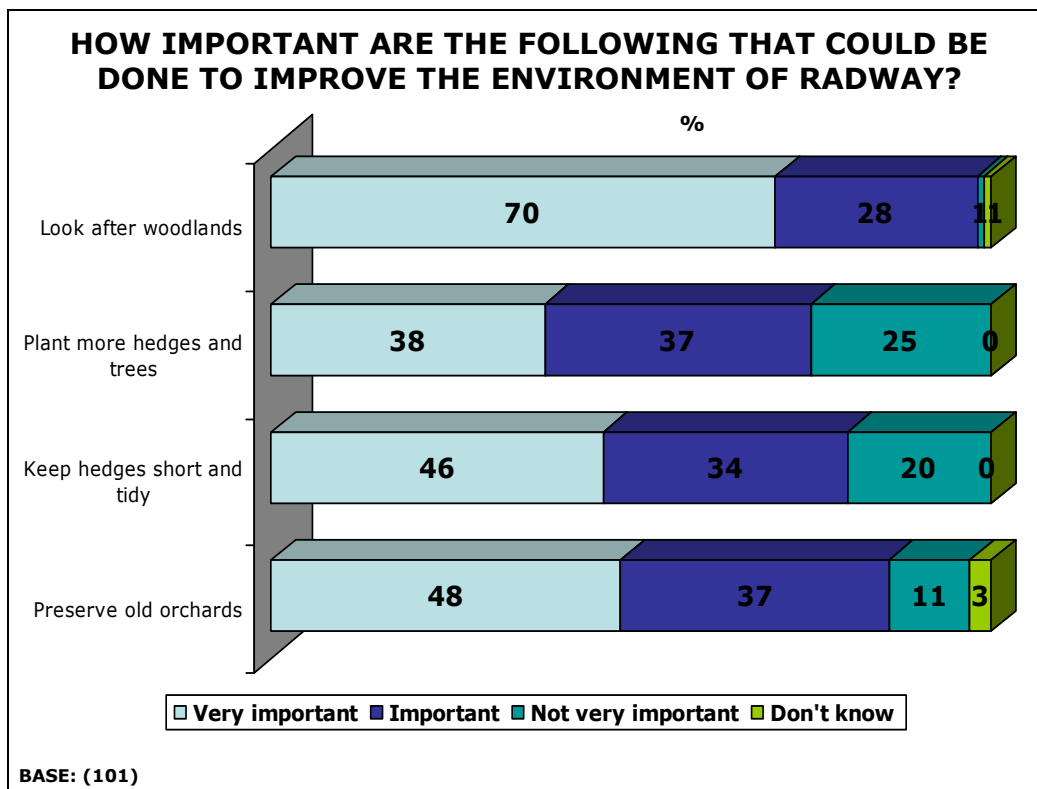

Chart 17:

How important are the following that could be done to improve the environment of Radway?

Nearly all respondents (98%) felt to look after woodlands was very important or important. Exactly a quarter (25%) said it was not very important to plant more hedges and trees. A fifth (20%) felt it was not very important to keep hedges short and tidy. 85% believed it was very important or important to preserve old orchards.

Chart 18:

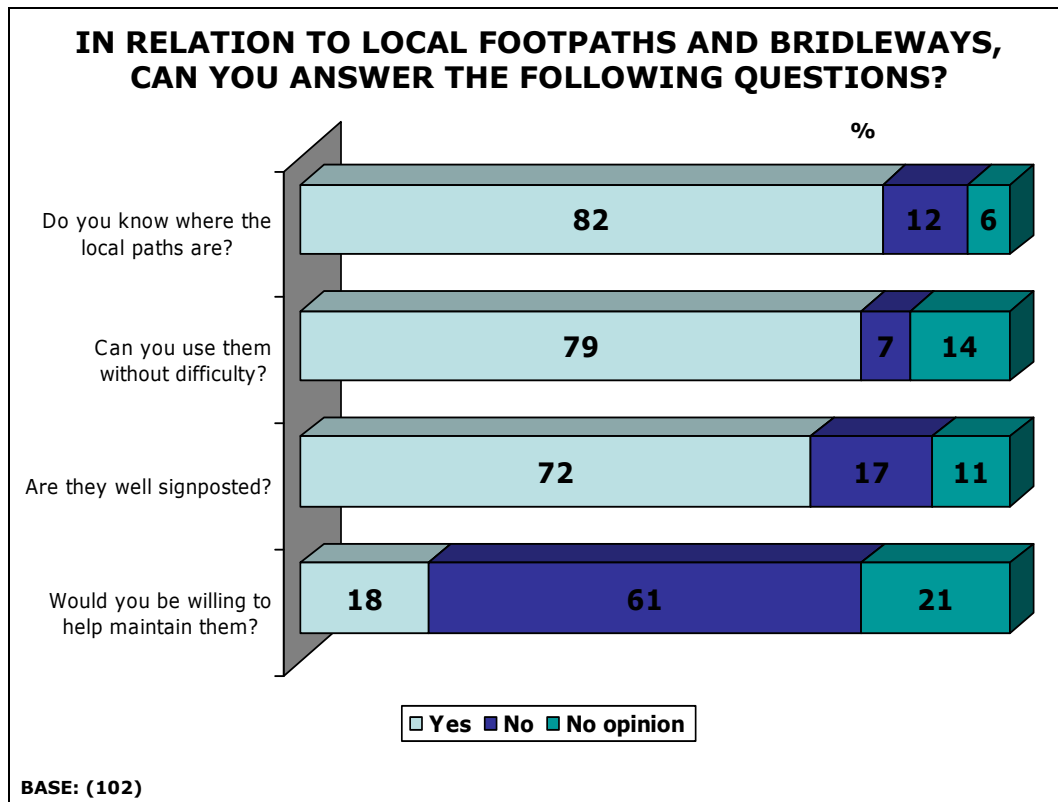

All residents were asked if they had other suggestions: 8 comments were made and these can be found in Appendix 4.

In relation to local footpaths and bridleways, can you answer the following questions?

Over four fifths (82%) of those surveyed did know where the local paths are, over three quarters (79%) could use them without difficulty, and seven in ten (72%) thought they were well signposted. Interestingly, almost one fifth (18%) stated they would be willing to help maintain them.

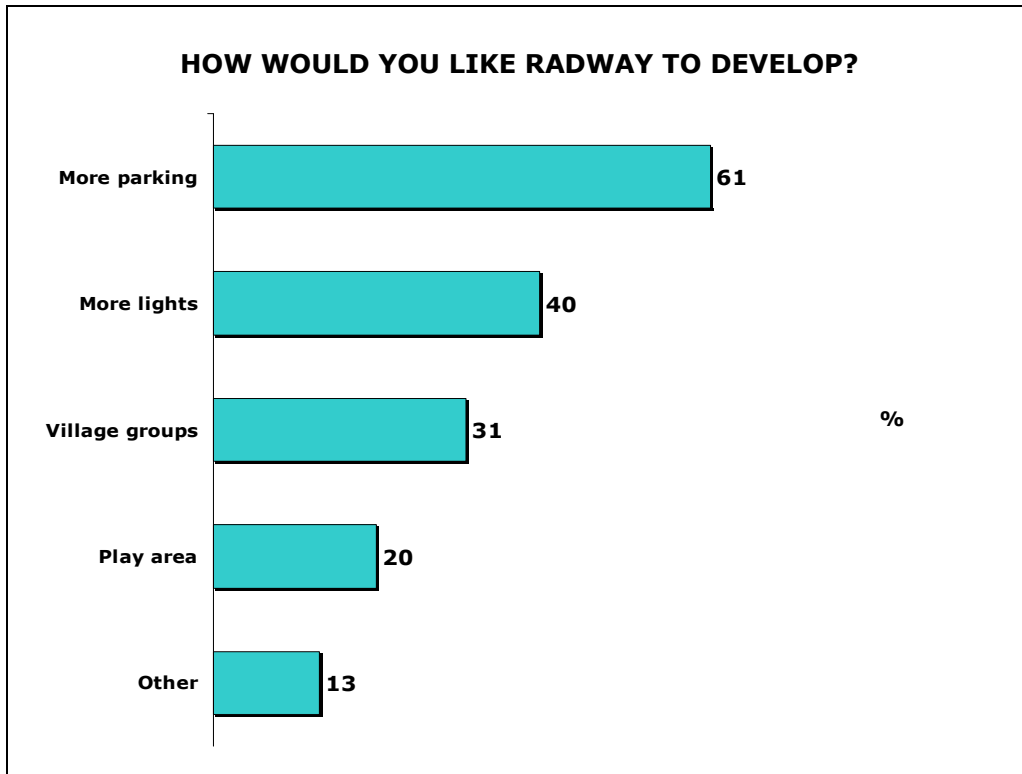

Chart 19:

How would you like Radway to develop?

Six out of ten respondents (61%) would like more parking, four in ten (40%) more lights, 31% would like village groups, and a fifth (20%) would like a play area. 13% gave other suggestions which represented 16 comments and these are listed in Appendix 5.

Chart 20:

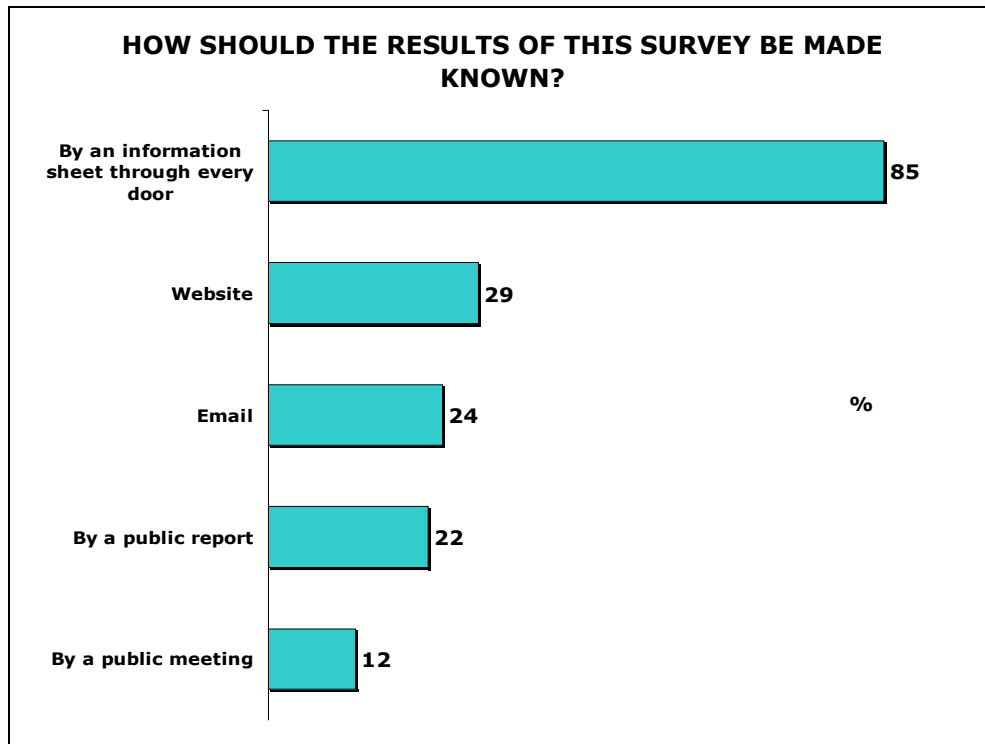

4.9 What's Next?

How should the results of this survey be made known?

Nine in ten respondents (85%) felt that the results of this survey should be made known by an information sheet through every door. Three in ten (29%) said via a website, just less than a quarter (24%) said via an email and 22% said via a public report. 12% of those surveyed thought the results of this survey should be made known through a public meeting.

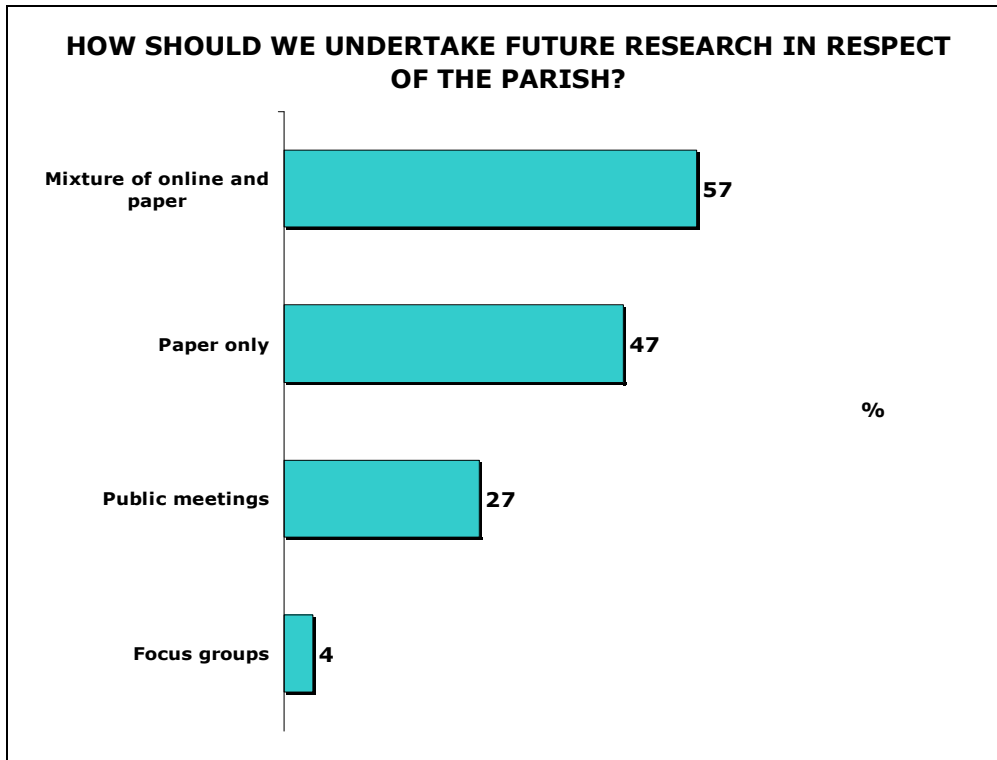

Chart 21:

How should we undertake future research in respect of the Parish?

Over half (57%) of those surveyed felt future research in respect of the Parish should be mixture of online and paper. Almost half (47%) cited paper only; over a quarter (27%) said public meetings and 4% stated focus groups.

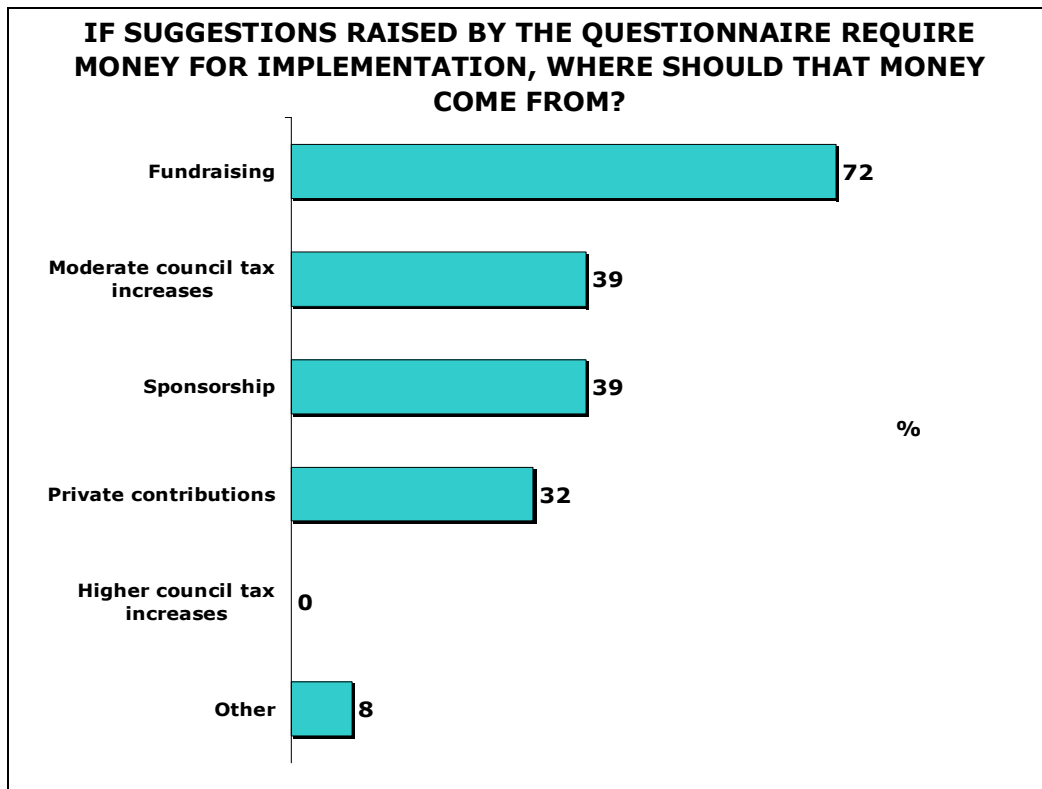

Chart 22:

If suggestions raised by the questionnaire require money for implementation, where should the money come from?

Nearly three quarters (72%) of respondents thought money for implementation of suggestions raised by the questionnaire should come from fundraising. Four in ten (39% in both cases) felt money should come from moderate council tax increases and sponsorship. Just under a third (32%) felt it should come from private contributions. Significantly, nobody thought that money should come from higher council tax increases. 8% gave other suggestions totalling 5 comments and these are listed in Appendix 6.

Chart 23:

4.10 Household Section

Number of people, including children, per household

A total base of 138 was included in the response to the question of how many people, including children, normally live in your household. The mean figure, per household, is 2.4.

Number of people per age group

129 people were included in the base in answer to the question of how many people in your household in each age group. The majority of males (16 out of 60 in total) fell in to the 45-59 age bracket and the majority of females (20 out of 69 in total) also fell in to this same age band.

Table 4: The number of people in households by age group

AGE	MALE	FEMALE
Years	Number	Number
0-4	1	3
5-10	4	5
11-15	4	3
16-17	2	1
18-24	4	2
25-44	9	10
45-59	16	20
60-64	8	9
65-74	8	4
75-84	3	7
85+	1	5
Base:	(60)	(69)

Is this dwelling your household's main residence?

Nearly all those surveyed (98%) confirmed this dwelling as their household's main residence.

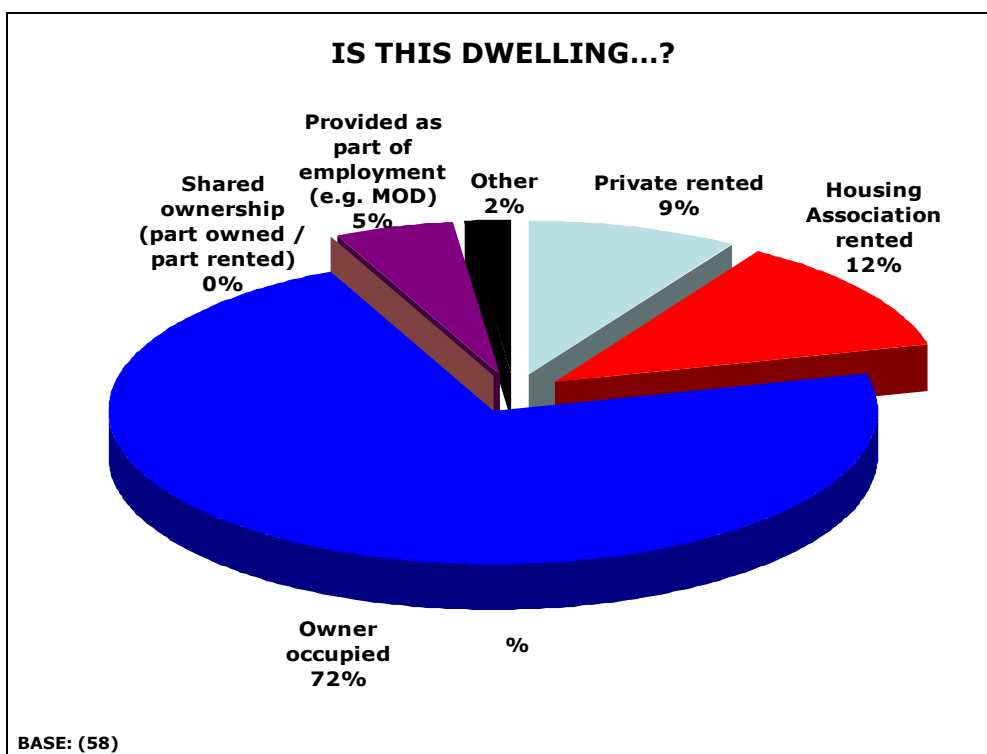

Chart 24:

Is this dwelling...?

Nearly three quarters (72%) of respondents stated their dwelling was owner occupied. 12% said Housing Association rented; and 9% cited private rented.

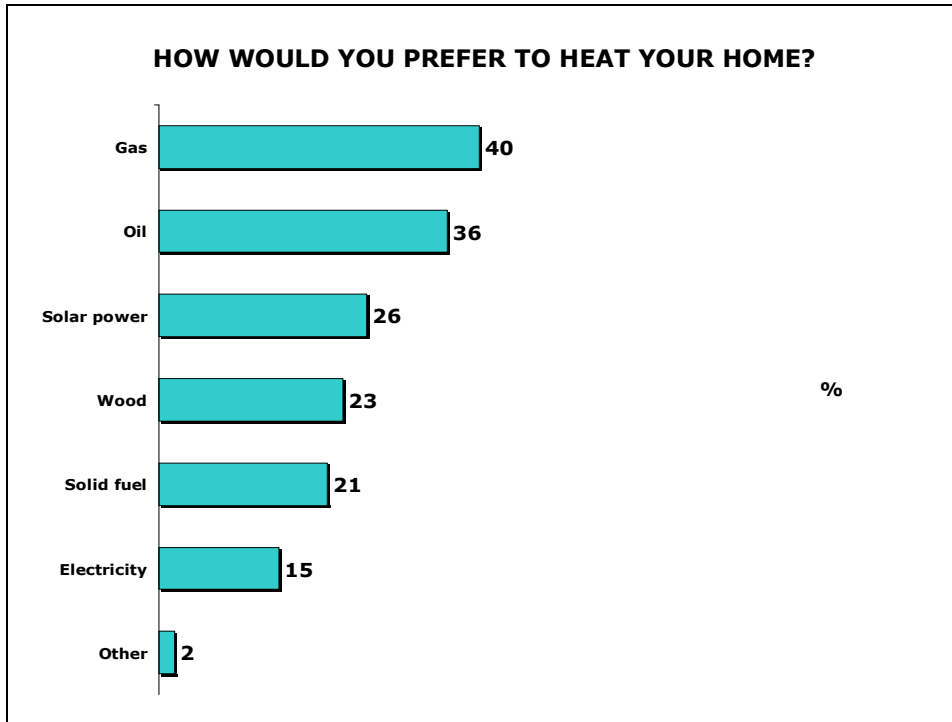

Chart 25:

How would you prefer to heat your home?

Exactly two fifths (40%) of respondents would prefer to heat their home with gas: over a third (36%) quoted oil; just over a quarter (26%) named solar power; and just under a quarter (23%) cited wood. Over a fifth (21%) said solid fuel and 15% stated electricity.

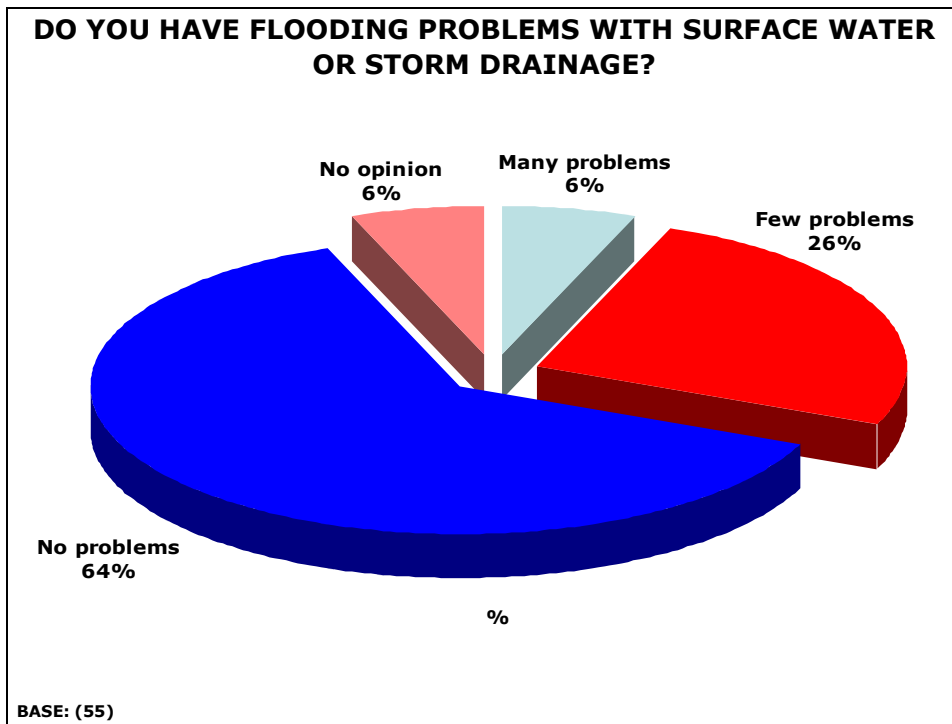

Chart 26:

Do you have flooding problems with surface water or storm drainage?

Almost two thirds (64%) of residents confirmed they had no flooding problems with surface water or storm drainage. However, just over a quarter (26%) had few problems and 6% said they had many problems.

Chart 27:

Is any individual in your household currently in need of alternative accommodation?

4% of those surveyed confirmed that an individual in their household is currently in need of alternative accommodation. That would be either the family as a whole or an individual namely the son.

Chart 28:

If you have stated yes, an individual in your household currently is in need of alternative accommodation, please state what type of accommodation is needed by the household / individual

Exactly half of those surveyed said they needed Housing Association rented accommodation; and exactly a quarter stated private rented. 25% of residents also cited owner occupied.

Chart 29:

Number of children under 16 in household who attend the following

The majority of those who responded, 7 out of a total of 15, had children attending primary school.

Table 5: How many children aged under 16 in your household attend the following?

	Number
Play group	0
Nursery school	2
Primary school	7
Middle school	3
Secondary school	3
School for those with special needs	0
Base:	(15)

Reasons why any of your children under 16 are unable to take part in after school activities

When asked to give the reasons why any of their children under 16 are unable to take part in after school activities, three quarters (75%) said lack of transport home; a quarter gave the reason of the distance between home / school; and a quarter stated the expense. Nobody indicated that special needs were not catered for.

How many 16 and over attend the following?

Of the households surveyed, 1 person aged 16 and over attended sixth form and four people of that same age group attended university.

How many roadworthy vehicles are kept by your household?

A total of 109 vehicles are kept by the households responding to this question and the average per household is 1.9.

Table 6: How many roadworthy vehicles are kept by your household?

- Riding locally (in Village), walking on footpaths in Radway, Yoga in Harford, Pubs in local villages, cinema in Stratford
- Golf is the only exercise I take at Rye Hill
- Radway or Leamington
- Warwick, Brailes
- Stratford Upon Avon
- Shipston - Swimming Pool
- Private tennis courts, walking (local)
- Riding school in Radway
- Banbury, Shipston
- Shipston Leisure Centre, Radway Cricket Club, Tysoe Football Club, Kineton High School
- Banbury

Appendix 3: Responses to Q41: Other landscape features (13 comments)

- Control housing line and housing zone. Control building - Agricultural/business use/
- Ridge and Furrow (1,2)
- A countryman's way of life
- Edge Hill
- Footpaths
- AONB needs to be actively managed and local council more proactive
- Footpaths across fields
- The road surfaces especially Langdon lane, needs to be resurfaced properly
- Ridge on Furrow, Green Fields
- The old Graveyard in West End, and the footpath should receive regular attention. Being an historical site which attracts many visitors.
- Birdlife
- Green lanes and footpaths
- Village green

Appendix 4: Responses to Q43: Other suggestions (8 comments)

- Remove suburban features
- Pick up rubbish from sides of roads off road car parking
- I do not wish to see Radway "Urbanised" with more lighting pavements, curbs and gentrification. I chose to live in Radway for its simplicity and country ways. It is important to me that we maintain these values
- Take out the hedge that mums from 1 - 5. The green that belongs still to the housing association to make more parking
- Moved to Radway because it was mainly unspoilt!
- Please never remove the hedge on the green from houses 1 to 5. It is a popular bird nesting site
- Plant trees but with much thought - trees grow big and not in verges
- Make pond deeper

Appendix 5: Responses to Q46: Other suggestions (16 comments)

- No more light (no more parking minimize extra signage, reduce municipal impact
- As in Q43 above
- Status Quo apart from social housing and email lock up business units
- Doesn't use change much. 2) Have a dog mess bin at the west end area of village as plastic bags are always being left there or dog mess!
- Higher speed internet, underground electricity cables
- Provision of allotments for those with smaller gardens, managed, thoughtfully provided parking
- A Shop
- A shop/general stores/ post office
- Radway is fine as it is, my home for nearly 90 years
- Less light pollution
- Public transport - bus service more frequent
- A better electricity and phone line supply
- More play equipment at park
- Leave Radway as it is please
- Nothing needed
- Mobile Shop, pub (weekend only) and dog bin on Nortons Lane

**Appendix 6: Responses to Q50: Other suggestions
(5 comments)**

- That is the responsibility of a responsible parish council - as in elected
- From the current council tax which I pay
- From council tax wastage which occurs at the moment e.g. repeated road mending when not needed
- Grants
- Council tax should be spent on the essential improvements! Many of us pay a high contribution already with few returns
